EBERL IRON WORKS, INC.

128 Sycamore Street, Buffalo, NY 14204-1492
(716)854-7633 ▪ 1(800)285-3056

Founded in 1923 by George and Frank Eberl, **Eberl Iron Works, Inc.** started as a small welding shop which fabricated wrought iron railings, exterior fire escapes and miscellaneous iron.

With five unique and distinct divisions, Eberl Iron Works, Inc. provides its customers comprehensive economical and innovative solutions for all their product needs:

**Metal Fabrication ▪ UNISTRUT Buffalo ▪ Systems Installation
Traffic Safety Products ▪ Rooftop Support Systems**

Metal Fabrication Division: www.stairpans.com

- Specializes in the shearing and forming of sheets and plates.
- Hole punching, notching, welding and finishing are available upon request.
- A comprehensive inventory of sheets, plates, galvanized and floor plates is in stock.
- A selection of angles, channels, flats and round bars is also available.

Unistrut Buffalo Division: www.unistrutbuffalo.com

- Warehouses and distributes non-residential building and support products.
- Target markets are structural support, safe walking surfaces and general support.
- Distribution includes Unistrut, Telestrut, ZSI, Sikla, Allied Tubing, Lindapter, Clic, Food Grade Strut, Kee Klamp, Snap-n-Strut, Wooster, Aickinstrut, Grip Strut, Perf-O-Grip, and more.

Systems Installation Division: www.eberliron.com

- Provides take-off services (design/build) to those requiring installation of specialty systems, taking your project from concept to completion.
- Offers specialty systems such as fall arrest/safety systems, medical support systems, ceiling grid systems, mezzanine systems, retail display applications, rooftop walkways and projects with in-plant requirements.

Traffic Safety Products Division: www.trafficsafetyproducts.net

- Provides quality custom traffic safety/control products including sign posts and accessories, marking and delineator devices, parking lot items, post driving and removal tools, and more.

RTS Systems Division: www.rooftopsupportsystems.com

- Provides innovative and economical solutions for non-penetrating rooftop support systems.
- Provides engineered systems that are delivered pre-assembled to jobsites.
- Offers custom design/build services for projects involving rooftop pipe, HVAC conduit, duct support, solar PV, crossovers and walkway systems.

Today, the second generation brothers, Frank and George Eberl,
have been joined by the third generation,
Nora and John Eberl to operate **Eberl Iron Works, Inc.**

The entire Eberl team continues the **Tradition of Service.**
