Network Task Group AI Repertorio

Network Task Group, Inc. specializes in:

- **Voice Carrier Solutions - Verizon, One Communications, Paetec, AT&T, Sprint, Global Crossing and Time Warner**
- **Monitoring Services - Global IP**

1. Network Task Group, Inc. is committed to helping companies gain the highest return on their IT investment by managing costs, reducing risks, speeding implementation and enhancing productivity.”
2. Our services fill the technology gap left by traditional integrators, who offer highly specialized services without product or maintenance support, and traditional resellers, who provide equipment but little or no systems support.
3. We provide:
 - Information Systems (IS) Managers what they want from a services integration supplier -more options and greater flexibility from a single source.
 - Unbundled service options which allow companies to choose the level of support they need to meet the changing realities of their business. Whether it is distribution support for mobile users worldwide or an external help desk to augment internal capabilities during peak hours, Network Task Group, Inc. provides the customized programs that help companies optimize their computing environment.
4. Network Task Group, Inc. delivers a full range of support services to ensure the day-to-day efficiency of a company's technical environment.
5. See next page for Business Continuity information – The Phonecell SX5T
