Temporary Help:

- Used for 1 day
- Used for extended time (hiring freeze)
- Used short term (seasonal)
- Used for special projects (control costs)

Example:

Let's say you have a three day project, and ask one of your supervisors to take on the project at their regular rate of \$25.00 per hour. That project will cost you \$600.00. Now, let's say you hired a temp from SPS Temporaries at the rate of \$12.00 per hour, you would save \$312.00 on just this one project.
