**Peter M Vito & Associates, Inc. Private Investigator
Patricia A Hensley**

Profoundly described as “THE KEYS TO THE KINGDOM,” let yourself be treated to the factually-related, storytelling wiles of Pete Vito from Vito & Associates. As a private investigator, Pete and his staff get involved in some very interesting cases. One such case was used as an example to all of us that you should always do background checks on prospective employees who will be serving in a fiduciary capacity in your business, or who have access to your finances or your purse strings. The investigators employed by Pete Vito are all former Federal, State and/or local law enforcement officers, insurance adjusters and corporate investigators. This allows them to properly assess and conduct investigative assignments. Some of our services include:

***Accident Investigation**

***Background Investigation & Pre-Employment Screening** (including verification of prior employment, education, criminal, credit, Department of Motor Vehicle records in New York State and throughout the US)

***Computer Investigations & Forensic Services** (expert forensic examinations can reveal evidentiary data through recovery of hidden, deleted and damaged files.)

***Financial Investigative/Forensic Accounting Services** (locate and identify assets and liabilities of individuals and corporations. These searches can reveal ownership of real property, bankruptcy filings, tax liens and judgments.)

***Fire Investigative Services**

***Industrial Espionage**

***Litigation Support Services**

***Surveillance**

***Undercover Investigative Services**

If you need it tracked – Peter and his crew can do the job. You’ve worked hard to get where you are. Keep your business healthy, sleep nights and be secure knowing that if you let Peter Vito & Associates do your homework, that all is well in the world. Before you hand over the “keys to the kingdom” let Peter offer some guidance.
